County Councillor for Foxton, Fowlmere, Shepreth, Thriplow & Heathfield, Heydon, Chishills,
Whittlesford

Parish Council Report March 2026

Cambs County Council

Record spending on roads, thousands of extra school places and support for vulnerable residents underpin Cambridgeshire County Council's ambitious budget, approved by a majority of Councillors in Feb. By approving the 2026–29 Business Plan and Budget, Councillors have approved a legal, balanced budget that also drives investment for vital services that communities say matter most to them. The nearly £1.3 billion Business and Budget Plan includes a number of investments aligned with the council's three new ambitions:

Supporting a green and sustainable county

To improve day to day journeys for drivers, cyclists and bus users, it has allocated an additional £20m for highway maintenance, on top of Government funding, to provide safer and more reliable roads across Cambridgeshire.

The council will also continue to provide leadership and deliver its Climate Change and Environment Strategy.

Enabling full and healthy lives for all

To support older people, adults with disabilities and families, who rely on care every day, the council is allocating £14.7m of additional funding for adult social care providers. This will help them to manage rising costs and ensure care workers are paid the Real Living Wage, improving stability and quality for those who depend on care workers for their support.

Ensuring fairness and opportunity

To help families under pressure from the cost-of-living crisis, the council is prioritising £1m to continue holiday meal vouchers for the children most in need, through to the end of summer 2026. As the Government withdraws the Household Support Fund, the council will also use its new £5m Crisis and Resilience Fund to provide a wider range of anti-poverty measures, offering practical support to households facing financial challenges.

The plan will create 3,500 new primary school places and invest £72 million over five years to increase secondary school places, including at Alconbury Weald and North-West Cambridge. It also includes £780,000 a year to run a children's residential home in South Cambridgeshire, as well as continued funding for the Families First programme, an early-intervention project that helps keep more families together and is supported by the £6.7 million Children's, Families and Youth Grant. In addition, more than £1.2 million will be invested in libraries and archives over the next two years.

The plans discussed included an increase of council tax by 4.99%, the maximum permitted by Government for county councils, as is the case in nearly all councils across England, and the level assumed by Government in setting its grant allocations. A total 2% of this increase is

specifically for adult social care funding. The increase will generate around £21million in additional funding and help the council continue providing the essential services people rely on. This will mean that for a Band D property, the County Council's share of Council Tax would increase by £84.78 a year, or £1.63 a week.

Low Income Family Tracker

Councillors at the Communities, Social Mobility and Inclusion Committee approved procurement of a data-led system that will allow more targeted support for low-income families in order to address and prevent poverty.

The new data-led system will be delivered in collaboration with the district and city councils across Cambridgeshire and is expected to help:

- Identify missed benefits– such as those that should be claiming national benefits like Pension Credit, but are not doing so
- Increase access to Free School Meals by notifying eligible families not currently receiving this support, with the knock-on effect of also securing additional pupil premium funding for schools
- Identify geographic pockets of need at a hyper-local level to support the planning and delivery of other council services
- South Cambridgeshire District Council have already adopted such a system, and in the last 12 months has secured nearly 1,000 additional claims for residents which are worth over £500k to residents in their first year alone, with a lifetime value of nearly £4 million based on average claim lengths.

The committee unanimously approved procurement of the new system for an annual cost of between £200-£220k, for a 3-year period (for a total contract value of £600k-£660k).

The Department for Work and Pensions (DWP) has confirmed that the full cost can be paid for using funding provided to the council by the Government's new Crisis and Resilience Fund.

Data-led systems used in other areas have shown a return on investment of over £400 for each £1 spent. This new platform will enable the council to focus on preventing residents from falling into poverty by building their financial resilience, reducing their future vulnerability and the need for subsequent more costly crisis interventions.

Following the approval of the Business Plan and Budget for 2026-27 earlier this month, the council has committed to ensuring fairness and opportunity wherever we can by investing in targeted interventions that help move people out of poverty and build long-term financial stability and independence. Procurement of this new system is a key milestone in delivering on this ambition for the people of Cambridgeshire.

Highways

728 potholes were filled in S Cambs in week 8. There are 513 out standing. We are trying to set up a highways call for Parishes March 9th 6pm. The Highways Committee agenda is here: https://cambridgeshire.cmis.uk.com/ccc_live/MeetingsCalendar/tabid/70/ctl/ViewMeetingPublic/mid/397/Meeting/2567/Committee/62/Default.aspx
